Visible, Valuable, and Viable

Announcing the Oncofertility Consortium's Strategic Plan

Vision 2030: A Roadmap for Oncofertility Research and Practices

Strategic Planning Process

Plans for 2020:

- January: Appreciative inquiry emails to all OPEN members to initiate SOAR (Strengths, Opportunities, Analysis, Results) analysis
- February: Leadership summit in Chicago
- March: Individual follow ups
- April: Outline mission, vision, and values statements
- May: Tactics
- June-October: Generate plan
- November: Announce plan at 2020 Oncofertility Conference

Strengths What are we most proud of as an organization? How does that reflect our greatest strength?	Opportunities What are the top three opportunities on which we should focus? How can we reframe challenges to be seen as exciting opportunities?
Aspirations When we explore our values and aspirations, "what are we deeply passionate about?"	Results What are the measurable results that would indicate we are on track to achieve our objectives?

We will best serve patients in need of fertility and endocrine preservation using integrated communication strategies that improve the awareness and understanding of all key stakeholders...through innovative tools...global partnerships and sister organizations.
